**ABOUT THE AUTHOR:** This mega-selling author and former attorney is a compelling storyteller. With each novel, Diskin seeks to write page-turners that don't let go, while tackling subjects that linger. With *The Green Line*, she dives into police corruption and widely abused civil forfeiture laws, a subject that *The New Yorker* tackled in an expose called "Taken" just a week before her book's publication, bringing added attention to the story and subject matter. Within months after her publication, John Oliver further exposed forfeiture's twisted uses in *Last Week Tonight*. His segment has now been viewed 11 million times on YouTube, demonstrating the timeliness and relevance of *The Green Line's* subject matter. Diskin's second book, *Broken Grace*, was an international bestselling psychological thriller, that touched on mental illness and the real world of "psychonauts." Her third, *Depth of Lies*, peels away the facades of marriage and suburbia, and with her latest, *Desperate Paths*, she tackles the collateral damage of sexual predators, covert racism, and the meaning of justice, while captivating characters pull readers toward every suspenseful twist and turn. With several translations of her work and numerous best-seller lists under her belt, she's quickly gaining attention as one to watch. Rick Kogan, of Chicago Tribune and WGN Radio has called her "a thrilling new voice on the literary landscape."
